

**Hydrocolloid, Silicone Gel, and Non-Adherent Foam Dressings  
Made for Gentle and Effective Healing.**

# About Company

Royal Impex is a trusted global exporter of high-quality wound care and healthcare support products. We specialize in supplying Hydrocolloid Dressings, Silicone Gel Sheets, and Non-Adherent Foam Dressings, all manufactured under hygienic conditions with strict quality control systems. Our products are designed to deliver gentle comfort, promote healing, and support patient care in hospitals, clinics, and home-care environments worldwide.

We believe that every healthcare provider deserves access to reliable medical supplies, and every patient deserves comfort and safety during the healing process. That is why we work closely with certified manufacturers and quality auditors to ensure consistent performance in every batch. Our packaging, material selection, and logistics are carefully managed to maintain product integrity during storage and international transport.

At Royal Impex, our approach to business is rooted in transparency, long-term commitment, and mutual growth. We value strong partnerships and provide responsive support to distributors, medical wholesalers, and healthcare institutions across various international markets. From product guidance to smooth documentation and export logistics, we ensure a seamless business experience and timely delivery for our clients.

## What We Believe

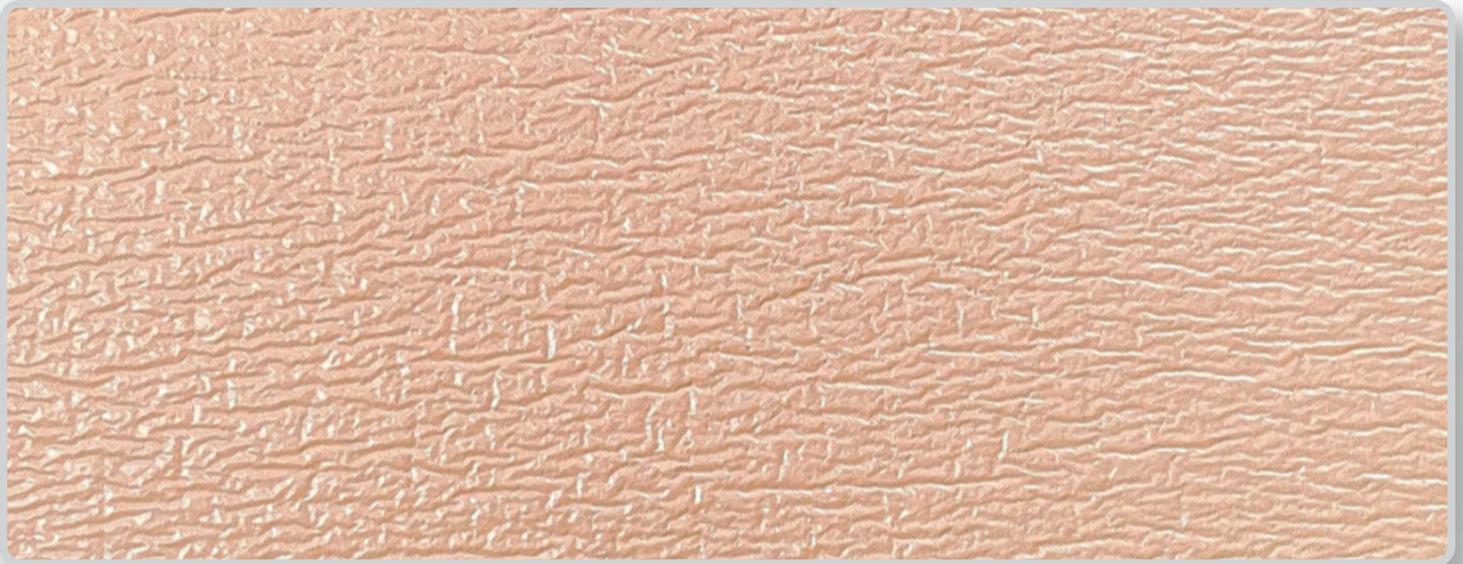

### OUR MISSION

To provide safe, effective, and reliable wound care products that support faster recovery and patient comfort, while maintaining professionalism, ethical sourcing, and a customer-first approach in every business relationship.

### OUR VISION

To become a globally respected supplier of advanced wound care solutions, recognized for quality, trust, and strong international partnerships.

# Non Adherent Foam Dressing

A soft, breathable foam dressing designed to provide cushioning, absorption, and protection without sticking to the wound surface. Ideal for managing light to moderate exuding wounds.

## Key Features

- Does not stick to wound bed
- Highly absorbent foam layer
- Allows air circulation for healthier healing
- Soft cushioning for sensitive areas
- Easy and painless dressing removal

## Recommended Uses

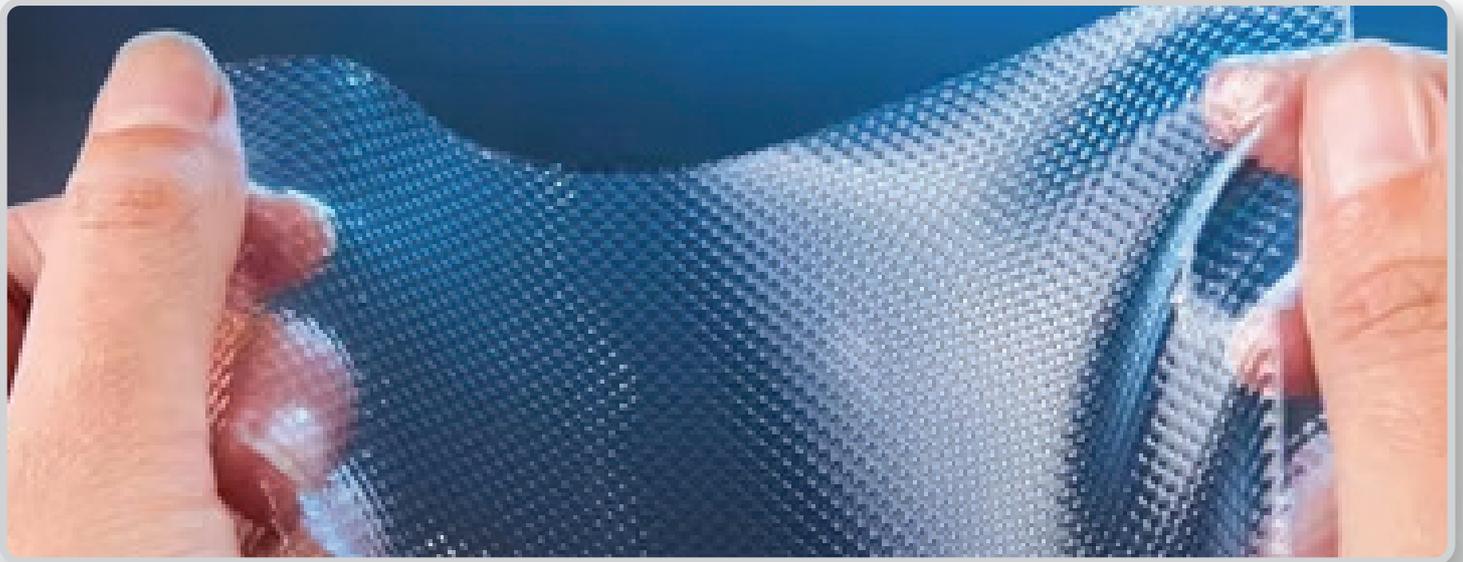

- Burns and scald wounds
- Diabetic foot wounds
- Skin graft care
- Pressure sores and ulcers
- Minor cuts and post-operative wound sites

## Benefits

- Reduces discomfort during dressing change
- Protects wound from friction and external impact
- Maintains a clean healing environment
- Patient-friendly for hospital & home use

# Silicone Gel Sheet

A premium medical-grade silicone sheet developed to reduce, soften, and flatten scars resulting from surgeries, injuries, burns, or stretch marks. It is non-irritating, breathable, and safe for repeated use.

## Key Features

- ▶ Made from high-quality medical-grade silicone
- ▶ Ultra-soft and skin-friendly surface
- ▶ Washable and reusable for long-term use
- ▶ Transparent and discreet while worn
- ▶ Suitable for sensitive and fragile skin

## Recommended Uses

- ▶ Post-surgical scars  
(C-section, orthopedic, cosmetic procedures)
- ▶ Burn scars
- ▶ Trauma / injury scars
- ▶ Keloid & hypertrophic scars

## Benefits

- ▶ Helps improve scar color and texture
- ▶ Reduces itching, redness & scar thickness
- ▶ Comfortable for daily long-hour wear
- ▶ Can be trimmed for custom wound/skin fit

# Hydrocolloid Dressings

A soft, flexible, and moisture-retentive wound dressing designed to support natural healing. The hydrocolloid layer absorbs wound fluid and forms a protective gel-like barrier that maintains an ideal moist environment for tissue regeneration.

## Key Features

- ▶ Gentle adhesive for comfortable wear
- ▶ Promotes faster and cleaner wound healing
- ▶ Helps maintain a moist wound environment
- ▶ Thin, flexible design conforms to body contours
- ▶ Provides cushioning and protection from friction

## Recommended Uses

- ▶ Pressure ulcers
- ▶ Minor burns
- ▶ Post-surgical incisions
- ▶ Skin tears and abrasions
- ▶ Under medical supervision for diabetic wounds

## Benefits

- ▶ Reduces pain during dressing changes
- ▶ Protects wounds from external contamination
- ▶ Encourages natural wound closure
- ▶ Suitable for hospital and home-care settings

# Turmeric Finger

Royal Impex is a leading export-import company specializing in premium-quality turmeric. We offer both whole turmeric and turmeric powder sourced from trusted farms. Known for its rich color, aroma, and natural health benefits, our turmeric meets global standards of purity and freshness.

Our turmeric products are carefully processed to retain maximum curcumin content, ensuring superior quality and flavor. Royal Impex is committed to delivering authentic Indian turmeric worldwide, enhancing cuisines, health, and wellness with every shipment of our naturally golden spice.

## Key Features :

- High Curcumin Content ensuring superior colour & flavour
- Naturally sun-dried for maximum freshness
- 100% Pure & Chemical-Free
- Rich Aroma & Vibrant Golden Colour
- Ideal for Food Processing, Pharmaceuticals & Herbal Use

# Quality Sugar S30

Sugar (as quota) is one of India's most significant commodities, and at Royal Impex, we specialize in providing high-quality sugar that meets international standards. Our range includes Hygienic Sugar, Raw Sugar, and White Sugar, carefully sourced and processed to ensure purity, taste, and consistency. With strict quality control and timely delivery, we cater to diverse global markets, ensuring complete customer satisfaction.

Royal Impex offers superior quality S30 Sugar, one of the most widely exported varieties of Indian refined sugar. Known for its crystal clarity, uniform size, and high purity level, S30 sugar is processed in modern mills following strict international standards.

## Key Features :

- High Purity (Minimum 99.8%)
- Uniform Small Crystal Size
- Brilliant White Sheen
- Low Moisture & Long Shelf Life
- Perfect for Food & Beverage Industries

# Variety of Tea

At Royal Impex, we bring you a world of flavors through our premium variety of teas, sourced from the finest tea estates. Each blend is carefully selected for its rich aroma, refreshing taste, and natural quality. From classic black and green teas to exotic herbal and wellness infusions, our collection is crafted to deliver a truly satisfying tea experience in every cup.

As a leading export and import company, Royal Impex is dedicated to maintaining the highest standards of purity, freshness, and packaging. We take pride in sharing the essence of authentic tea culture across the globe—connecting people, traditions, and taste with every sip.

## Black Tea :

Rich, bold, and naturally energizing — our Black Tea is sourced from premium tea-growing regions to deliver a strong aroma and deep flavor. Perfect for daily consumption and for creating blends with consistent quality.

- \* Type: CTC / Orthodox, Grade (BOP, BP, Dust)
- \* Taste profile: Strong / Bright / Aroma
- \* Packing: 25kg bags or retail boxes
- \* Shelf life: 18–24 months

## Wellness Tea :

Crafted to nourish the mind and body, our Wellness Tea range combines natural herbs, botanicals, and premium tea leaves to create blends that support immunity, digestion, and overall vitality. Each infusion is carefully formulated to deliver both therapeutic benefits and delightful flavor. From calming blends that reduce stress to energizing herbal fusions, every cup is designed to enhance well-being. Our Wellness Teas are free from artificial additives, making them an ideal choice for health-conscious consumers worldwide.

## Premix Tea :

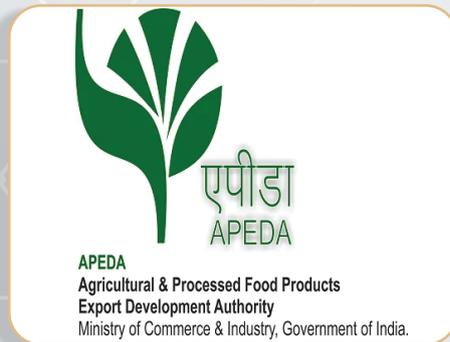

Premix Tea offers the perfect cup of chai anytime, anywhere with its instant, convenient formulation. Blended with tea extract, milk solids, sugar, and select spices, it gives a consistent café-style taste in seconds. Just add hot water to enjoy a smooth, aromatic, and comforting tea experience. Perfect for travel, offices, vending machines, and quick home refreshment

## Monk Fruit Iced Tea :

Monk Fruit Iced Tea is a naturally sweet, refreshing beverage with zero sugar and low calories. Powered by monk fruit extract, it delivers clean sweetness without any aftertaste, making it an ideal choice for health-conscious tea lovers. The crisp and cooling flavor profile makes it perfect for warm climates and on-the-go consumption. A modern, guilt-free iced tea crafted for both wellness and enjoyment.

## We Are A Certified Company
